### The Role no. 1

This is a new and exciting role in the Oxford Internet Institute (OII). Working under the supervision of the Head of Research Facilitation, the post holder will provide key administrative support to major research projects at the Oxford Internet Institute, in particular the *Misinformation, Science, and Media* project funded by the Oxford Martin School and led by Professor Philip N. Howard.

You will bring knowledge of the Higher Education research environment together with an ability to support academic staff in a timely and efficient manner. You will join a growing Research Facilitation team which strives to both maximise the quality of current research, and broaden the funding portfolio of the department.

### Responsibilities

- Assist project teams as assigned by the Head of Research Facilitation, with handling external enquiries, and attend their team meetings; support those teams’ Principal Investigators (PIs) in fulfilling all non-financial reporting on current grants, including ethical and technical reporting; support PIs with planning and implementing project activities in accordance with agreed timelines.

- Support the development of research funding applications.

- Provide support for the forthcoming Research Excellence Framework (REF) exercise, including publication support and impact tracking and monitoring.
• Assist the Finance Officer with research-related duties, including but not limited to: compiling and distributing financial budget reports and processing financial documentation, in line with University financial regulations.

• Handle external enquiries about research projects at the OII – and liaise with colleagues (particularly the Media and Communications Manager).

• Attend regular project team meetings to provide administrative support and action decisions made in these meetings.

• Provide advice and assistance in all aspects of post-award non-financial reporting, particularly where knowledge of discussions at application stage may be relevant or help explain an issue in post award.

• Support the preparation and submission of funding proposals, particularly multi-partner proposals, which necessitate the co-ordination of information gathering from multiple sources.

• Support the department’s Research Excellence Framework (REF) Sub-committee, particularly with evidence gathering for impact case studies.

• Work closely with members of the administrative team to ensure accurate grants costings are created and submitted, deadlines are met, and there is a smooth transition from pre- to post-award when applications are successful.

• Liaise with external sponsors where required, ensuring that all grant applications comply with sponsor rules and providing advice on the application process.

• Undertake any other duties commensurate with the grade of this post as may be required by the Head of Research Facilitation.

The Role no. 2

Selection Criteria for both roles

Essential

1) A good general level of education, including a degree or equivalent.
2) Proven knowledge and understanding of the Higher Education research environment.
3) Evidence of research administration skills.
4) Excellent communication skills, both oral and written.
5) Team working skills, self-motivation and a willingness to adapt to changing needs and priorities.
6) Strong organisational skills, with attention to detail and accuracy.
7) Excellent IT skills (use of Microsoft Word, Excel and databases).
8) Ability to organise own workload and meet deadlines in the presence of conflicting priorities.
9) Confidence compiling and manipulating financial data.
10) Capacity to work independently and a willingness to resolve situations, as well as knowing when to refer issues to others.
Desirable

1) Experience using contemporary project and team management applications.
2) Experience using contemporary communication and task tracking tools.
3) Competency using the University’s financial management systems (e.g. Oracle Financials and X5).
4) Copyediting skills.

About the University of Oxford

Welcome to the University of Oxford. We aim to lead the world in research and education for the benefit of society both in the UK and globally. Oxford’s researchers engage with academic, commercial and cultural partners across the world to stimulate high-quality research and enable innovation through a broad range of social, policy and economic impacts.

We believe our strengths lie both in empowering individuals and teams to address fundamental questions of global significance, while providing all our staff with a welcoming and inclusive workplace that enables everyone to develop and do their best work. Recognising that diversity is our strength, vital for innovation and creativity, we aspire to build a truly diverse community which values and respects every individual’s unique contribution.

While we have long traditions of scholarship, we are also forward-looking, creative and cutting-edge. Oxford is one of Europe’s most entrepreneurial universities. Income from external research contracts in 2016/17 exceeded £564m and we rank first in the UK for university spin-outs, with more than 130 companies created to date. We are also recognised as leaders in support for social enterprise.

Join us and you will find a unique, democratic and international community, a great range of staff benefits and access to a vibrant array of cultural activities in the beautiful city of Oxford.

For more information please visit www.ox.ac.uk/about/organisation

The Oxford Internet Institute

The Oxford Internet Institute has expanded rapidly since its founding in 2001 to become a world-leading centre for the multidisciplinary study of the Internet and society, with activities focusing on research, post-graduate teaching and policy-making and practice.

The OII aims to bring about a greater understanding of the various social factors that are shaping the Internet and their implications for society. Central to this vision is a view of the Internet as a phenomenon that goes far beyond its technical capabilities to encompass all the people, services, information, and technologies that are intertwined in this ‘network of networks’. Excellence in research underpins the Institute’s collaborative and teaching activities. Wide-ranging collaborative relationships with experts from academia, government, business, and industry in the UK and around the world also play a central role in its strategic drive.

The OII’s research strategy has targeted areas critical to the public interest, where the design and use of the Internet and related technologies are likely to contribute to a substantial restructuring of social practice and institutional arrangements. Having developed critical mass in these areas, the OII’s strategy for the next five years is geared towards deepening and extending the range of grant-funded research around each theme and
disseminating the outputs in high-quality journals, while ensuring that research helps inform and shape policy and practice.

Research at the OII focuses on 8 research clusters:

- **Connectivity, Inclusion & Inequality**: understanding the shifts in the power dynamics caused by information and communication technologies.
- **Digital Knowledge and Culture**: charting the on-going digital transformations of the sciences, social sciences, arts and humanities, and their implications.
- **Digital Politics & Government**: investigating political behaviour, digital government and government-citizen interactions in the age of the internet, social media and big data.
- **Education, Well-Being and Digital Life**: addressing the psychological, social and educational implications of the Internet, for people of all ages, across the full lifespan, with a particular focus on children and young people.
- **Ethics and Philosophy of Information**: investigating the ethical, epistemological, logical and ontological aspects of information, its sciences, phenomena and dynamics.
- **Internet Economics**: understanding the economic and social implications of new business models, new market structures, and new types of economic activity.
- **Information Governance & Security**: analysing the challenges created by the digitisation of information, seeking solutions through new governance rules, processes and institutions, and investigating the relationship between emerging technologies, their design, and information security and privacy.
- **Social Data Science**: seeking a quantitative understanding of how individuals behave and interact in society.

In all its research, the OII aims to operate at the cutting edge in both quantitative and qualitative methodologies that cut across disciplines and topics. Methodological innovation is vital given the changing nature of the Internet and advances in ICTs which both necessitate and facilitate the development of new techniques. OII researchers are developing methodologies such as the embedding of ICTs for real time observation of social phenomenon; webmetric techniques for observing the underlying structure of the web presence of social institutions; artificial intelligence design; experimental research; on-line action research; content analysis; investigation of virtual environments; and online survey research.

For more information about the Oxford Internet Institute please visit [http://www.oii.ox.ac.uk](http://www.oii.ox.ac.uk)

**Social Sciences Division**

The Oxford Internet Institute is a department within the Social Sciences Division, one of four academic Divisions in the University, each with considerable devolved budgetary and financial authority, and responsibility for providing a broad strategic focus across its constituent disciplines.

The Social Sciences Division represents the largest grouping of social sciences in the UK. It is home to a number of outstanding departments and to the internationally ranked Law Faculty; all are committed to research to develop a greater understanding of all aspects of society, from the impact of political, legal and economic systems on social and economic welfare to human rights and security. That research is disseminated through innovative graduate programmes and enhances undergraduate courses.

How to apply

Before submitting an application, you may find it helpful to read the ‘Tips on applying for a job at the University of Oxford’ document, at www.ox.ac.uk/about/jobs/supportandtechnical/.

If you would like to apply, click on the Apply Now button on the ‘Job Details’ page and follow the on-screen instructions to register as a new user or log-in if you have applied previously. Please provide details of two referees and indicate whether we can contact them now.

You will also be asked to upload a CV and a supporting statement. The supporting statement must explain how you meet each of the selection criteria for the post using examples of your skills and experience. You may include experience gained in employment, education, or during career breaks (such as time out to care for dependants).

Your application will be judged solely on the basis of how you demonstrate that you meet the selection criteria stated in the job description.

Please upload all documents as PDF files with your name and the document type in the filename.

All applications must be received by midnight on the closing date stated in the online advertisement.

Information for priority candidates

A priority candidate is a University employee who is seeking redeployment because they have been advised that they are at risk of redundancy, or on grounds of ill-health/disability. Priority candidates are issued with a redeployment letter by their employing departments.

If you are a priority candidate, please ensure that you attach your redeployment letter to your application (or email it to the contact address on the advert if the application form used for the vacancy does not allow attachments)

Should you experience any difficulties using the online application system, please email recruitment.support@admin.ox.ac.uk. Further help and support is available from www.ox.ac.uk/about_the_university/jobs/support/. To return to the online application at any stage, please go to: www.recruit.ox.ac.uk.

Please note that you will be notified of the progress of your application by automatic emails from our e-recruitment system. Please check your spam/junk mail regularly to ensure that you receive all emails.

Important information for candidates

Pre-employment screening

Please note that the appointment of the successful candidate will be subject to standard pre-employment screening, as applicable to the post. This will include right-to-work, proof of identity and references. We advise all applicants to read the candidate notes on the University’s pre-employment screening procedures, found at:
www.ox.ac.uk/about/jobs/preemploymentscreening/.

Data Privacy

Please note that any personal data submitted to the University as part of the job application process will be processed in accordance with the GDPR and related UK data protection legislation. For further information, please see the University’s Privacy Notice for Job Applicants at: www.admin.ox.ac.uk/councilsec/compliance/gdpr/privacynotices/job/. The University’s Policy on Data Protection is available at: www.admin.ox.ac.uk/councilsec/compliance/gdpr/universitypolicyondataprotection/.

The University’s policy on retirement

The University operates an Employer Justified Retirement Age (EJRA) for all academic posts and some academic-related posts. From 1 October 2017, the University has adopted an EJRA of 30 September before the 69th birthday for all academic and academic-related staff in posts at grade 8 and above. The justification for this is explained at: www.admin.ox.ac.uk/personnel/end/retirement/acrelretire8+/

For existing employees, any employment beyond the retirement age is subject to approval through the procedures: www.admin.ox.ac.uk/personnel/end/retirement/acrelretire8+/

From 1 October 2017, there is no normal or fixed age at which staff in posts at grades 1–7 have to retire. Staff at these grades may elect to retire in accordance with the rules of the applicable pension scheme, as may be amended from time to time.

Equality of Opportunity

Entry into employment with the University and progression within employment will be determined only by personal merit and the application of criteria which are related to the duties of each particular post and the relevant salary structure. In all cases, ability to perform the job will be the primary consideration. No applicant or member of staff shall be discriminated against because of age, disability, gender reassignment, marriage or civil partnership, pregnancy or maternity, race, religion or belief, sex, or sexual orientation.
Benefits of working at the University

University Club and sports facilities

The University Club provides social, sporting and hospitality facilities. It incorporates a bar, café and sporting facilities, including a gym. Staff can also use the University Sports Centre on Iffley Road at discounted rates, including a fitness centre, powerlifting room, and swimming pool.
See: www.club.ox.ac.uk and www.sport.ox.ac.uk/oxford-university-sports-facilities.

Information for international staff (or those relocating from another part of the UK)

If you are relocating to Oxfordshire from overseas, or elsewhere in the UK, the University's International Staff website includes practical information related to moving to and settling in Oxford such as advice on immigration, relocation, accommodation, or registering with a doctor.
See: www.internationalstaffwelcome.admin.ox.ac.uk/

The University of Oxford Newcomers' Club

The University of Oxford Newcomers' Club is an organisation run by volunteers that aims to assist the partners of new staff to settle into Oxford and to provide them with an opportunity to meet people in the area. See www.newcomers.ox.ac.uk/

Childcare

The University has excellent childcare services with five University nurseries, as well as University-supported places at many other private nurseries.
For full details including how to apply and the costs, see www.admin.ox.ac.uk/childcare.

Family-friendly benefits

The University subscribes to My Family Care (www.admin.ox.ac.uk/personnel/staffinfo/benefits/family/mfc/) and staff are eligible to register for emergency back-up childcare and adultcare services, a 'speak to an expert' phone line and a wide range of guides and webinars through a website called the Work + Family space.

Disabled staff

We are committed to supporting members of staff with disabilities or long-term health conditions. Please visit www.admin.ox.ac.uk/eop/disab/staff for further details including information about how to make contact, in confidence, with the University’s Staff Disability Advisor.

Staff networks

The University has a number of staff networks including the Oxford Research Staff Society, BME staff network, LGBT+ staff network and a disabled staff network. You can find more information at www.admin.ox.ac.uk/eop/inpractice/networks/

Other benefits

Staff can enjoy a range of other benefits such as free visitor access to the University’s colleges and the Botanic Gardens as well as a range of discounts.
See www.admin.ox.ac.uk/personnel/staffinfo/benefits
